Hi Jennifer,

Yes, I didn't realize Chris Frey started next week. Let's include him and Francesca, as you mention below. Do you have a scheduler I can work with to make this happen?

Many thanks, and I look forward to chatting.

Alison

Thanks so much for your note and will be happy to talk with you on this. Nathan Gentry is our scheduler. Suggest we also include our new political, Chris Frey who starts next week for ORD as a DAA. I can also include Francesca Grifo who is the Agency's' Scientific Integrity Official if you'd like. Look forward to virtually meeting you – welcome to EPA!

jennifer

Subject: EO Implementation

Hi Jennifer,

My name is Alison, and I am the new Deputy Chief of Staff. Dan Utech put me in charge of figuring out how to implement the suite of executive orders that have come down over the last week. You likely already saw this, but President Biden issued a [memo on scientific integrity](#) yesterday that laid out a number of tasks that agencies, including EPA, have to take in the coming months.

I would love to set up a time to talk with you about this EO and get a general sense from you about whether it is a big lift for ORD as well as your preliminary thoughts on where you think you might need help from us.

If that all makes sense, let me know who I can reach out to about your schedule. Also let me know if I should include anyone else from your team.

Many thanks!

Alison
